

Intentionally Evangelistic Church Strategy! It sounds impressive and it is. Don McClutcheon has piloted this strategy over the last thirteen years with over 450 churches of all sizes and worship styles. Forty percent of the churches utilizing this strategy have increased in two years from 100% to over 600% in reaching persons for Christ and baptizing them. They are also far more successful in keeping and discipling those they are reaching.

Following solid Biblical principles (Acts 2:41-47) your church can experience growth in Evangelistic Leadership, Evangelistic Prayer, Personal Evangelism, Event Evangelism and Assimilation. As you can see, this is not “just another” Southern Baptist program. This is a life sustaining process, a viable strategy that involves you and your church in an exciting journey.

Directors of missions, senior pastors, staff and lay leadership attending together will maximize the impact of the strategy. In order to participate in the seminars, the senior pastor must attend. A \$40 fee includes the notebook, lunches, snacks and a certificate of completion.

Intentionally Evangelistic Church Strategy
